

INNOVATIVE CLEANTECHNOLOGY SOLUTIONS FROM FINLAND

EXIGO
exigo-finland.com

Finland is one of the world's leading countries in the cleantech sector. Finnish universities and R&D centers together with cleantech companies are doing visionary research, development and innovations. Finland can offer world-class know-how in Circular Economy and Smart City Solutions.

EXIGO Finland is a private consulting and export management company established in 2006.

We are helping Finnish Cleantech and Industrial companies to enter in the Middle East and Asian markets.

Exigo's strength is expertise in the target markets and knowledge of our key business sectors. Our experience is based on several years working in the field. After several successful assignments during the past years, we know what it takes for Finnish companies to succeed in our focus countries and sectors.
